President's Message

Greetings: Hershey this year was great as far as finding Model A parts on my list. Now it will just be a matter of finding the time to install the parts. I did see three fellow club members from Langhorne at the show. Hopefully many others were able to attend and enjoy the show as well.

Nominations for club office positions will be taken at our next club meeting. Have you considered running for an office? Now is a great time to volunteer.

During our next meeting we also need to discuss our holiday party. If you have any ideas, bring them to the meeting.

November's meeting will be a parts auction again. Bring your parts to sell and also bring cash to bid with. This is your chance to get all of the parts that you didn't find at Hershey this year.

For our January meeting, Bob Russell will be doing a tech talk on a Model A subject. This is a nice way to start off the new year. Can we have some volunteers for other months? A short 10-15 minute presentation would be greatly appreciated. Let the officers know ahead of time so that we can plan the meeting accordingly.

Jim

Editor's Message

Hi All: I have the chance to say thank you to all the members who have wished all of us "sickies" well over the past two months. I am happy to report that we all appear to be doing well and are all on the mend.

Jack Fritsch and Joe Chamberlain became part of the Zipper Club having by-pass surgery. While at this writing Joe is in the hospital he is doing well and is expected to be released before you receive the newsletter. Jack is up and moving and beginning to get around with the supervision of his daughter and grandkids.

Dave Miller is also on the mend. He is feeling better and has begun to drive his Model A to breakfast again. You know Dave feels better when he is behind the wheel of his A.

Donna and John Day's son John, Jr is on the mend and we all wish him well.

And finally, Me (**Steve Organ**) am beginning to mend after the new electrical implant was put in. Still have many stiches and the unit still needs final programing but it appears to be working well compared to the old unit. The wonders of modern technology.

I am sorry if I missed anyone. I have been putting out a sick call newsletter as long as I was well enough to do it and finally I was banned from the computer for a week so I wasn't able to put it out. Please let me know if I missed anyone and I will add it to next month's Sick Call List. Thanks to all for their well wishes. I didn't know my

phone could ring so much! *Steve*

55 th Annual Banquet

Our annual banquet was held at Tiffany's Restaurant on Sunday, September 21, 2014. It was well attended with over 60 member coming and over 16 antique cars (most of them Model A's) parked in the parking lot outside.

The guests of Tiffany's always spend time looking at our cars and asking questions. The members who brought their cars are always happy to answer and show the people around their cars.

The banquet was called to order by our president Jim Maier who also led us in the Pledge to the flag. After some opening remarks, Ted Kulesza (our Vice-President) said Grace and we all enjoyed a wonderful meal. The restaurant did a great job this year with all the food tasting great and we were even able to send a couple of meals home to Jack Fritsch who is recovering from By-Pass Surgery. We all hope he was allowed to eat what we sent home!.

One Extra Tire Or a Half-Inch Wider Tire

Is This Not Better Than an Extra Price?

We address this to tire buyers who pay more than Goodyear prices.

Some tires cost one-third more. You pay for three such tires all that four Goodyears cost.

Do you believe that three tires were ever made which would outlast four of Goodyears? If not, why lose that extra tire?

Or you can do this:

The cost of an extra-price tire will buy you a half-inch larger Goodyear. And the larger tire will fit your rim.

The cost of an extra-price 30x3 will buy you a 31x3½.

The cost of an extra-price 32x3½ will buy you a 33x4.

The cost of an extra-price 36x4½ will buy you a 37x5.

So with other sizes. If you wish to pay that extra price, why not get this extra size?

But they buy the utmost in a tire. They are all that you should pay.

Extra Features

In No-Rim-Cut tires you get four features found in no other tire. You get them without any extra price.

The No-Rim-Cut feature ends rim-cutting completely. That's the greatest cause of tire ruin.

Our "On-Air" cure saves the countless blow-outs due to wrinkled fabric. That extra cure costs us \$450,000 per year.

Loose treads are combated by a patent method which reduces this danger by 60 per cent.

All-Weather treads—the premier anti-skids. Tough, double-thick and enduring. As smooth as a plain tread, yet with deep, sharp, resistless grips.

Every extra-price tire on the market, remember, lacks all of these costly features.

Pay the New Prices

Goodyear No-Rim-Cut tires are costing half what they used to cost. Last year alone we dropped our prices 28 per cent.

Our present prices are due to mammoth output, new efficiency, new equipment.

Goodyear tires outsell any other.

Today they are gaining new users faster than ever before in our history. Sheer merit has made them the most popular tires in the world.

The price of Goodyears is all that tires should cost.

Any Dealer can supply you Goodyear Tires. If the wanted size is not in stock he will telephone our Local Branch
